

AMENDMENTS TO THE SPECIFICATION:

Please amend the indicated paragraphs of the substitute specification in accordance with the amendments indicated below.

Page 6, first full paragraph, amend as indicated below:

Furthermore, the control means judges as a specific macromolecule crystal the sample for which the fluorescent image is detected by the specific macromolecule detecting means and the outline showing the crystal is detected by the crystal detecting means, and recognizes the position of the specific macromolecule crystal (~~claim 2~~).
